

POLICY 6.5 ENERGY CONSUMPTION

PURPOSE and OBJECTIVES

ENERWAVE is committed to managing and sustainably use resources in order to maximize energy saving, focusing on energy performance improvement.

In particular, this system has the objective of ensuring:

- The exhaustive identification and assessment of the use of energy resources as well as their efficient use and management
- Continuous improvement of energy performance / efficiency.

SCOPE

This Energy consumption management applies to all aspects of ENERWAVE's operations, including facilities, equipment, personnel, and activities that impact energy consumption.

REQUIREMENTS

- R.6.5.01 A system is in place, compatible with ISO 50001 to identify, assess, and manage energy resource and use aspects which are related to its activities for power generation and apply appropriate documented procedures and work instructions for its related operations, facilities and personnel.
- R.6.5.02 A process is in place in order to fully comply to all relevant and applicable Greek, and European legislative, normative and contractual requirements, environmental licenses and permits as well as standards, guidelines and best practices and other National and International obligations.
- R.6.5.03 Processes are in place for the achievement of continual improvement of the of the energy management system and of the company's Energy Consumption system performance.
- R.6.5.04 Suitable training is provided to ENERWAVE's personnel and to third parties on energy consumption best practices, energy efficiency, and the importance of reducing energy consumption.
- R.6.5.05 Full implementation of monitoring program including regular reviews of energy performance indicators and objectives that comprise Energy Consumption, is pursued to ensure consistent and effective energy management.
- R.6.5.06 ENERWAVE supports the procurement of energy efficient products and services that positively impact energy performance and pursues implementation of activities that entail energy performance improvements.
- R.6.5.7 Provision of all necessary resources and related information for managing and sustainably using resources in order to maximize energy saving and achieve environmental and energy objectives and targets.

ENERWAVE is committed to review and update this policy and related documentation so that it remains relevant and appropriate to the company needs and operations and fully aligned with current legislation. Moreover, ENERWAVE is committed to communicate this policy to its employees, subcontractors and related third parties working under the control of the company.
